PROFESSIONAL SUMMARY

Lead Product Designer and Design Engineer with 7+ years of experience designing complex B2B SaaS and PropTech products. Expert in end-to-end product design — from UX research and strategy to interaction design, design systems, and production-grade full-stack implementation. Shipped a complete internal analytics platform from concept to production that recovered blocked revenue and tripled API adoption within the first month. Consistently drives measurable outcomes through data-validated design decisions, AI-augmented workflows, and close cross-functional collaboration with Product, Engineering, Customer Success, and executive leadership.

PROFESSIONAL EXPERIENCE

8020REI

Jun 2024 – Present

Lead Product Designer & Design Engineer

Remote · PropTech SaaS · B2B · U.S.-based

- Own product design strategy, discovery, and end-to-end execution across all platform initiatives for a B2B real estate investor operations SaaS
- Designed and shipped **Metrics Hub** from zero to production: unified analytics platform across 6 data sources (Google Analytics, BigQuery, AWS Aurora, Firebase, Asana, Google Drive) — **recovered blocked revenue through automated alert detection**, tripled Properties API adoption, zero additional software spend
- Led 0→1 design of **DM Campaign** (automated direct mail system) — adopted by **12 active clients** in early release, reduced operational friction and improved deal velocity
- Led **Properties View redesign**: **50% increase in platform usage**, 70%+ positive CSAT, ~80% reduction in reported bugs across high-traffic investor workflows
- Led **BuyBox Editor redesign** targeting a 20% reduction in time-to-valid-setup, **80% fewer configuration errors**, and 50% fewer support tickets
- Developed and maintained the **Kairo and Axis design systems**, including reusable component libraries, token architecture, and automated quality gates
- Designed complex data-heavy workflows including campaign automation, property intelligence dashboards, investor operations tools, and multi-source analytics interfaces

EDUCATION

Master's in Branding, Brand Strategy & Visual Communication

OBS Business School
2020 – 2021

TuHabi (Habi)

Product Designer · Creative Designer

Hybrid · Bogotá, Colombia · PropTech

Aug 2022 – Jun 2024

- Redesigned mobile-first acquisition funnel for Mexico: **30% increase in qualified lead conversion**, higher mobile completion rates, improved downstream lead quality for sales
- Reduced registration flow from 11 to 7 screens using AI-assisted prefill, progressive disclosure, and A/B tested variants — validated through behavioral analytics
- Designed internal operations platform for commercial and zone leaders managing teams and territories across cities, replacing spreadsheet-dependent workflows
- Conducted UX research, built AI-driven customer service prompts, contributed to brand systems and multi-channel marketing campaigns

Metro de Bogotá

Creative Designer

On-site · Bogotá, Colombia · Public Infrastructure

Nov 2018 – Aug 2023

- Designed large-scale public communication campaigns for one of Colombia's flagship infrastructure projects
- Built and maintained internal communication systems: intranet design, editorial newsletters, advertising campaigns, and event materials

Rd Studio

Industrial Designer

Bogotá, Colombia

Jul 2014 – Nov 2014

- 3D modeling and product prototyping for industrial design projects

SELECTED IMPACT — KEY PROJECTS

Metrics Hub — Unified Internal Analytics Platform

8020REI · 2026 · Lead Designer & Full-Stack Builder

Built end-to-end (UX architecture → full-stack implementation → cloud deployment). Unified 6 heterogeneous data sources into a single operational dashboard for non-technical teams. 91 reusable widgets across 11 business domains. Axis design system with automated quality gates. Stack: Next.js, React, TypeScript, Tailwind CSS, Fastify, BigQuery, AWS Aurora, Firebase, Google Cloud Run, GitHub Actions.

→ **Blocked revenue recovered** · **3× API adoption** · **Company-wide self-serve analytics at zero additional cost**

DM Campaign — Automated Direct Mail System (0→1)

8020REI · 2025 · Lead Product Designer

Designed a two-track automation system (RapidResponse + SmartDrop) turning direct mail into a native, data-driven product channel. Included guided campaign setup, onboarding, performance tracking, and transparent automation rules for real estate investor operations.

→ **12 active clients in early adoption** · **Higher platform stickiness** · **Faster deal velocity**

Properties View Redesign — Investor Decision Intelligence

8020REI · 2025 · Lead Product Designer

Redesigned the highest-traffic platform surface to keep investors inside the product for decision-making instead of external tools. Introduced signal-first layouts, tab-based view systems, configurable columns, smart search, and expanded filters across a Kairo design system migration.

→ **50% usage increase** · **70%+ positive CSAT** · **~80% reduction in bugs and reported issues**

Bachelor in Industrial Design

Pontificia Universidad Javeriana

2011 – 2016

Smart Funnel — Mobile Acquisition Redesign

TuHabi · 2024 · Product Designer

Mobile-first acquisition funnel redesign for the Mexico market. Applied AI-assisted data prefill, progressive disclosure, and A/B experimentation to reduce steps while preserving qualification quality.

→ **30% increase in qualified lead conversion** · **Higher mobile completion rates**
