PROFESSIONAL SUMMARY

Lead Product Designer and Design Engineer with 7+ years in B2B SaaS and PropTech. Owns product design strategy, UX research, interaction design, design systems, and production-grade implementation in React/Next.js and Vue/Nuxt — partnering closely with engineering, product, and leadership teams. Specializes in 0→1 product design, complex data-driven interfaces, and AI-augmented design and delivery workflows.

PROFESSIONAL EXPERIENCE

8020REI

Jun 2024 – Present

Lead Product Designer & Design Engineer

Remote · PropTech SaaS · B2B · U.S.-based

Own end-to-end product design for a B2B PropTech SaaS used by U.S. real estate investors — strategy, discovery, UX research, interaction design, design systems, and full-stack implementation. Partner closely with Product, Engineering, Customer Success, and executive leadership; use AI-augmented design and delivery workflows.

- Lead platform-wide redesigns of core data-management and configuration interfaces — driving **up to 50% usage lift, 80% fewer configuration errors, ~80% bug reduction, and 70%+ CSAT**
- Designed and shipped 0→1 a full-stack analytics platform giving non-technical teams self-serve access to data across 6 internal systems — **recovered blocked revenue through automated alerts and tripled API adoption** (Next.js, TypeScript, Fastify, BigQuery)
- Design, build, and scale multiple production design systems — coding components alongside frontend engineering and aligning cross-functional teams around shared component libraries that ship across multiple platforms

Habi

Aug 2022 – Jun 2024

Product Designer · Creative Designer

Hybrid · Bogotá, Colombia · PropTech

Designed mobile-first user experiences and internal operations tools for a Latin American PropTech platform across Colombia and Mexico — owning discovery, UX research, interaction design, and prototyping alongside engineering, product, and growth teams.

- Led mobile acquisition-funnel optimization through behavioral analytics, progressive disclosure, and A/B-tested variants validated with quantitative data — **+30% qualified lead conversion**
- Designed an internal operations platform for commercial and zone leaders managing teams and territories across multiple cities, replacing spreadsheet-dependent workflows
- Conducted UX research, built AI-driven customer service prompts, and contributed to brand systems and multi-channel marketing campaigns
